

Applications

Convenience

Allows for easy socket module removing and repositioning.

Order

Adding new module is simple, get away with the massive cables.

Safe

Triple safety design.

Tracks		
Installation	Wiring	Customized
Surface	Need 3 wires: line, neutral, and earth.	Straight connect (0.4-2.5m) L-shape connect
Recessed	Recommend 6mm <sup>2</sup> cable.	Straight connect (0.4-2.5m)

# Simon Track Socket

Less space, more outlets

- 

Instant use
- 

Max power support
- 

Superior safety
- 

Clean and beauty
- 

Freely sliding
- 

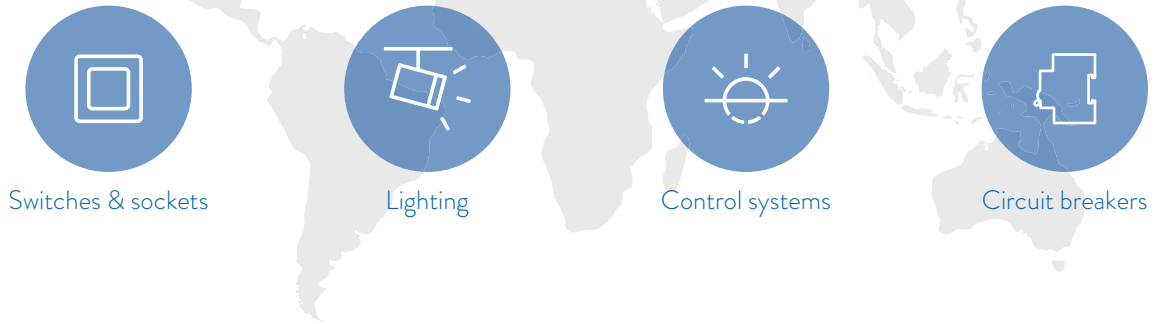

Simple installation

# Simon since 1916 from Barcelona

Simon is an international company with more than 105 years history. Headquartered in Barcelona, Simon is made up of 25 companies throughout the world, and with presence over 90 countries.

Our solutions:

## Simon Track Socket, a flexible, practical and pleasant power solution.

### General guide

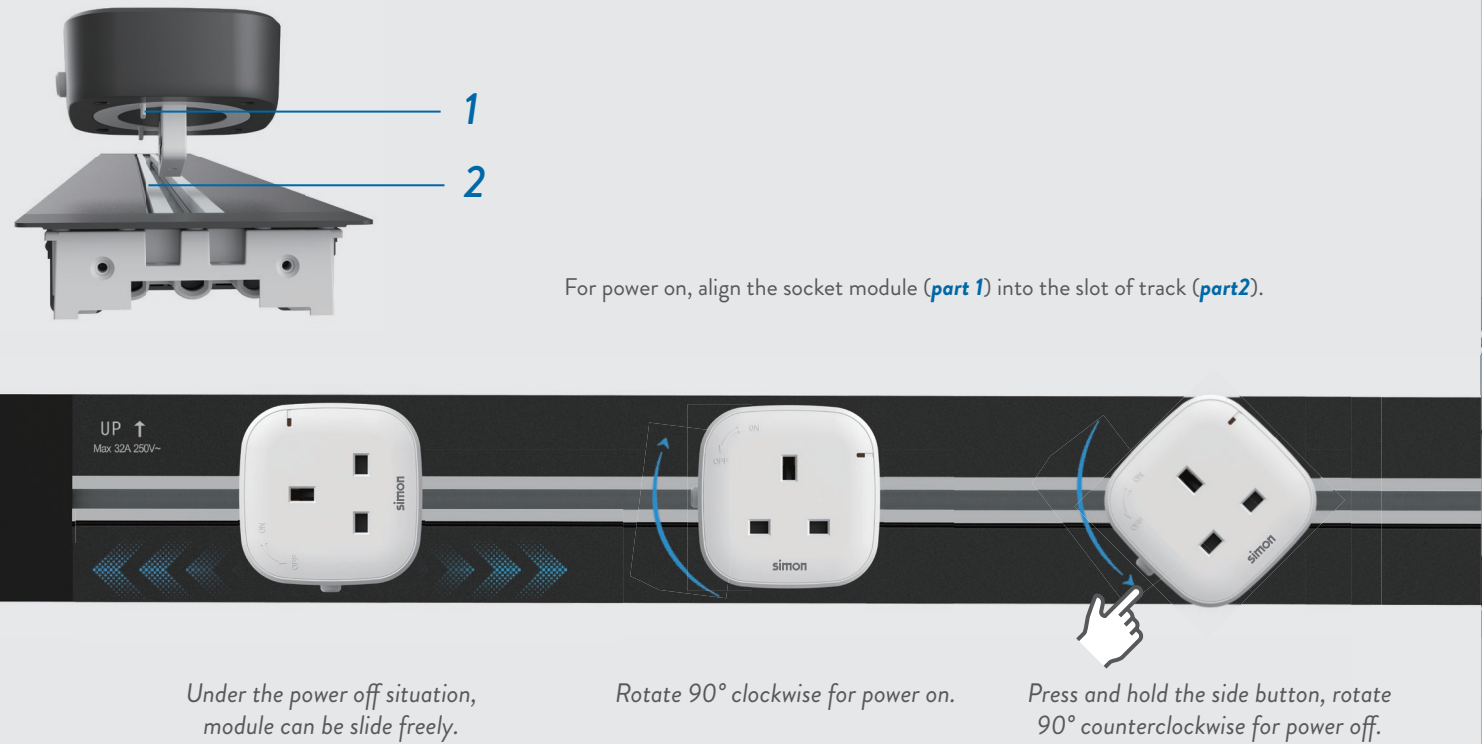

A single track can support a maximum power of **8000W**.  
Able to support multiple appliances at the same time.

Outlet modules can be repositioned freely into different spot on the track.

\*Maximum power of the individual socket module: 2500W

## Freely reposition, flexible adaptation

Outlet module can be slide freely on the track.  
Indicator of the socket module shows clearly power on or off.

## Product design

### Color and shape

Two kinds of color or shapes available, to match different type of interior design.

### Socket option

Multiple options to satisfied different countries.

Multi-standard socket module

BS socket module

Schuko socket module

USB outlet up (2.1A 5VDC)

## Modern fashion, easy maintenance

Anodized aluminum surface material, longer service life.

## Triple design, 100% safety.

### 1. Slot design

- PVC insulation slot**  
Prevent electric shock even touching the surface.  
\*Do not insert the object without isolated protection into the slot.
- Copper component**  
0.6mm good quality copper clipper, excellent durable.

### 2. Shell design

- Shell with earth contact**  
For safety usage.

### 3. Shutter design

- Children safety lock**  
Shutter of the socket can prevent children from inserting conductive objects into sockets.
